Participation

Collaboration

- Politicians
- Civil Servants
- Citizens
- Companies
- Non-Governmental Orgs

Transparency

Provide citizens with information about what their Government is doing.

Open Data

The default release of the data the government collects.

All the studies, reports, decisions, maps and calendars available online in a machine-readable format.

Open Data

- Budgets
- Expenses
- Maps
- Transit
- Taxes
- 311
- Construction
- Crime

Data vs Information

Data is raw, unorganized facts.

When data is structured, or presented in a given context so as to make it useful, it is called information.

Open Data in Canada

Municipalities and Provinces across the country now have open data portals.

At the federal level we have **open.canada.ca**

Success Story: ReCollect.net

App built using City of Vancouver Open Data to reminder citizens of their garbage day.

Now a company with the following cities as customers: Vancouver, Surrey, Ottawa, Victoria

How Do We Participate As...

- Coders
- Designers
- Journalists
- Entrepreneurs

Coders

You've got the skills to process, filter, and visualize this data.

Unopen data can also be liberated through scraping.

Designers

Turning data into information is a design / UX problem.

Journalists

Data is a starting place for stories that might otherwise have been missed.

Entrepreneurs
